

Tiferet Community Garden

MISSION STATEMENT

In the spirit of *Tikun Olam*, the Tiferet Community Garden uses plants to catalyze relationships between individuals, the Congregation, the community and the natural world in a beautiful and productive garden.

VISION

The Tiferet Community Garden is a welcoming and beautiful refuge where individuals and groups find fellowship and solace. This special place catalyzes joyful relationships between people and the earth through the growing, harvesting and sharing of produce. The Garden is a venue for linking, celebrating, and learning from the seasonal rhythms of the secular and spiritual worlds.

The act of gardening nourishes the mind, nurtures the spirit, and strengthens the Congregation. The Garden encourages diverse relationships between Tiferet's members, particularly families and different generations. It provides an immediate sense of involvement for current and new members.

The Garden is a visible expression of the Congregation's values and beliefs. It builds bridges, linking with the secular and religious communities throughout Dallas of which Tiferet is a part.
